

Learning with Real-life Immersive Situation Rooms

Immersive Dental is a virtual experiential portal aimed to give a comprehensive practical dental knowledge to dental practitioners and students alike with aspects of

Dental Concepts
Patient Diagnosis
Viewing Medical Records
Patient Communication
Treatment Procedure
Dental Protocols
Knowledge Assessment

We achieve this through online simulated training via 2D and 3D animated scenarios, where we simulate a doctor and patient interaction while taking them through the whole treatment journey.

We call these simulated experiences as “**Situation Rooms**”

- Real-life patient situations
- Emotional intelligence in dealing with patients' anxiety
- Experience a variety of Dental cases and treatment procedures

At Immersive Dental, we are committed to revolutionizing the way dental students and professionals learn and grow.

The immersive experiences will empower dental students and practitioners to enhance their knowledge, refine their skills, and achieve excellence in their field.

Our focus is teaching dentistry practical knowledge like how it happens in real life through actual doctor and patient interaction, diagnosis process and treatment procedures, giving you the experience of navigating the decision-making process towards best patient outcomes.

- Diagnosis steps
- Treatment options
- Decisions for the best treatment
- Patient communication
- Prescribing right medications
- Explaining patient aids

**Knowledge assessment through
Question-and-answer sections followed by
feedback and guidance**

Immersive Dental is a platform from Infiniqo Inc. a New Jersey, USA based company with expertise in situation-based simulations for Continuing Medical Education (CME) & other industries.
